

**APLIWELD® Secure+**

FEATURES	BENEFITS
Remote electronic ignition unit	<p><b><u>SAFER TO USE &amp; MORE EFFICIENT</u></b>                      Labour risks minimised: User is at a distance of various metres                      Ignition rate over 99% avoids material wastage                      Very low thermal shock equals less wear on moulds</p>
Unique tablet format	<p><b><u>REDUCES WASTAGE &amp; STOCKHOLDING</u></b>                      Eliminates use of various sized powder cartridges                      Ensures user always has available compound</p>
Non-flammable / non-explosive materials	<p><b><u>SAFER TO STORE &amp; TRANSPORT</u></b>                      No specific storage requirements. Can be transported without restrictions.</p>
Recyclable packaging	<p><b><u>ENVIRONMENTALLY FRIENDLY</u></b>                      Cardboard packing used, not plastic containers as with traditional powders.</p>
Rechargeable ignition unit	<p><b><u>RECHARGEABLE</u></b>                      Easily charged from mains supply or car charger</p>
Tablets do not absorb moisture	<p><b><u>NO SHELF LIFE OR DEGREDDATION</u></b>                      Zero material losses</p>
